Continuous Learning & Talent Development:
What Can You Do?

Evaluate your Learning Environment

✓ Find out what channels and content are available for learning
- ❑ How do employees currently:
    - ❑ learn new skills?
    - ❑ find information?
    - ❑ get questions answered when needing to make a decision?
- ❑ Where content is available, is it well curated? Searchable?

✓ Look for existing work teams or groups that cross organizational functions and disciplines:
- ❑ What is working well for these groups?
- ❑ What could be improved?

✓ Evaluate your current culture – does it support continuous learning?
- ❑ Are employees encouraged to learn new skills and share knowledge at all levels?
- ❑ What barriers need to be addressed?
